The Personnel Co-op and the Association of PVO Financial Managers are pleased to announce that they have decided to officially join together. Our new strategic alliance will allow us to integrate our internal operations and expand our influence for the benefit of our shared community.

Our new name is based on our premise that *inside* every international relief or development NGO there is a core of professionals who provide the structure and expertise to support the reach and impact of their organization. We are pleased to announce that we will soon be working under the name:

## InsideNGO

*Operational Excellence for Global Impact*

For thirty years, these two associations have been serving the finance, grants, contracts and human resource professionals within the international development and relief community. The purpose of both associations has been to provide a forum for networking, sharing knowledge, enhancing professional development, and working as an advocate on behalf of the sector. Together these two associations offer members: workshops; listservs; a members-only resource library; compensation & benefit surveys for HQ, Ex-pats & TCNs and local field offices; an annual indirect cost survey; member roundtables; advocacy; annual meetings and more.

In addition to supporting HR, Finance, and Grants & Contracts, a newly emerging group focused on IT is starting to take form and lawyers and general counsels from member organizations have also expressed an interest in networking. The goal of this strategic alliance is to better serve the international community and to promote cross functional and cross organizational learning.
